

### On the cover

The promise and perils of synthetic biology: leader, page 11. The engineering of living organisms is not yet changing everything. But in time it will. See Technology Quarterly, after page 40

• **The new era of corporate scandal** Boeing, Goldman Sachs, Facebook. A rash of accidents and misconduct claims suggest that standards have slipped at America Inc. Time for a reset, page 51

• **Algeria kicks out its dictator** The resignation of President Abdelaziz Bouteflika is a good start. Now overhaul the system that kept him in power: leader, page 12. His regime falls to in-fighting, page 37

• **Why Europe's banks are so rotten** The continent's lenders try to claw their way back to financial respectability. Good luck, page 59. Zombie banks need to rediscover their lust for life: leader, page 13

• **Great wheels of China** A long-held ambition to dominate the global car industry will make China a force in the future of personal transport: briefing, page 18
